www.treesforlife.org.au

Trees remove carbon dioxide from the air & replace it with oxygen

TreesForLifeofferstwoNationalCarbonOffsetStandardcompliantoptions,**Carbon Offset**and**CarbonOffsetPlus**.Ourprogramletsyouoffsetallorsomeofyourcarbon emissions by funding credits from renewable energy projects and through the establishment of local native plantings to reduce atmospheric carbon over time.

Join our program if you would like to offset your emissions, offset or reduce the emissions from your business, or promote a service or product by matching trees planted to sales. *eg. for every 10th coffee*

Option 1 - Carbon Offset Credits [global renewable energy projects]

This option funds the retirement of 1 Voluntary Carbon Unit (VCU) to offset 1 tonne of CO₂e (\$18 unit) on your behalf. You should choose this option if you wish to make carbon offsetting statements or claims

Option Two - Carbon Offset Plus [credits + local plantings]

1 VCU (\$18) plus choose from the 3 following options;

Trees For Carbon @ \$4 donation per tree [1 VCU + 1 tree = \$22 per tonne]

Funds a native tree or shrub, planted as tubestock or by direct seeding on private land by Trees For Life that has legal protection over the planting for a min of 30 yrs

Trees For Habitat @ \$3.30 donation per tree [1 VCU + 1 tree = \$21.30 per tonne]

Offers identical benefits to Trees For Carbon except that the legal protection period over the planting is a minimum of 10 yrs

Trees For Land @ \$2.00 donation per tree [1 VCU + 1 tree = \$20 per tonne]

Funds a native tree or shrub for a landholder to plant into previously cleared areas of their property

***If you are interested in tax deductible donated trees only; please calculate on average of 5 trees per tonne of CO₂e or \$20 per tonne*

- * Call us for personalised service to calculate your carbon footprint.
- * Offset your flights, car use, power or meals
- * Customised & personalised offset certificates from only \$40 now available
