

Trees For Life
Carbon Neutral Program
Planting Site: 2009

Yankalilla, South Australia

This property 3km north-east of Yankalilla and on the banks of the Carrickalinga Creek is host to 10 hectares of local provenance revegetation as part of the Carbon Neutral program. These plantings will substantially buffer the remnant vegetation along the creek and link neighbouring property remnants.

Above: Aerial photograph showing the revegetation area. Carrickalinga Creek forms the northern boundary of the property

Above: Part of the property showing direct seeding rows undertaken on 11th September 2009 (Photo 27-nov-09)

Eucalyptus leucoxylon germinated from seeding on 11th September 2009 (Photo 27-nov-09)

Above: *Acacia rupicola* (foreground) and *Acacia dodonaeafolia* establishing in the direct seeding rows (photo 15-Jan-2010)

Planting Dates:

Direct Seeding undertaken over 12ha on 11th September 2009.

Species planted on site:

Acacia sp dodonaeafolia, melanoxydon, paradoxa, pycnantha, retinodes (hill form), rupicola

Allocasuarina sp: verticillata, muelleriana, striata

Banksia marginata

Callistemon sieberi

Dodonaea viscosa spatulata

Eucalyptus sp : fasciculosa, leucoxydon, viminalis cygnetensis

Leptospermum lanigerum

Melaleuca lanceolata

Xanthorrhoea semiplana

Carbon uptake:

The total carbon target for the 2009 plantings on this site is 2,200 tonnes CO₂e sequestered over 100 years.
